Recommendation/Resolution:

RESOLUTION OF THE BOARD OF EDUCATION OF THE CITY OF PATERSON IN THE COUNTY OF PASSAIC, NEW JERSEY REGARDING THE BORROWING OF A STATE AID PAYMENT FOR JUNE 2025

Whereas, the State of New Jersey (the "State") will again delay the receipt of the State aid payments until fiscal year 2025/2026 and

Whereas, The Board of Education of the City of Paterson in the County of Passaic, New Jersey (the "Board of Education") needs to borrow the June 2025 State aid payments in the principal amount of \$20,000,000 in order to meet its cash flow requirements for that period; and

Whereas, N.J.S.A. 18A:22-44.2 allows New Jersey school districts to enter into short term loans with banks of their choice because of the delay in the June State aid payments; and

Whereas, all borrowing under this statute requires the approval of the New Jersey Department of Education, requiring the Board of Education to submit a written application and a demonstration of need for such borrowing; and

Whereas, the principal and interest on approved loans will be paid directly to the Board of Education by the State, and the Board of Education is responsible for repaying the note and related interest to the lending bank;

Now, Therefore, Be It Resolved, that the Board of Education hereby authorizes or ratifies the School Business Administrator, or his designee, to submit the necessary application and supporting documentation to the Passaic County Executive Superintendent to obtain funding in the amount of \$20,000,000, together with interest thereon, at the rate of 6% per annum from TD Bank and authorizes the execution of a "State School Aid Anticipation Note" with the lender to undertake the borrowing.

Now, Therefore, Be It Further Resolved, this resolution shall take effect immediately.

"Social networks" also means an Internet-based service that allows individuals to: construct a public or semi-public profile within a bounded system created by the service; create a list of other users with whom they share a connection within the system; and view and navigate their list of connections and those made by others within the system.

For the purposes of this Policy, "use of a social network" shall include, but not be limited to: posting to a social network, reposting another person's post to a social network, messaging, or any other publication of material on a social network.

Nothing in this Policy prevents a Board of Education member from using a social network. However, a Board member must avoid conduct on a social network that would violate the School Ethics Act - N.J.S.A. 18A:12-21 et seq., which includes the Code of Ethics for Board Members. Board members should be advised communications, publications, photographs, and any other

information posted by the Board member or reposted by the Board member on a social network could violate the School Ethics Act and be cause for sanctions in accordance with the law.

While this Policy respects the right of Board members to use social networks, Board members shall recognize they are held to a higher standard than the general public with regard to standards of conduct and ethics. A Board member's use of social networks shall not damage the reputation of the school district, employees, students, or their families. Board members who use social networks shall ensure their conduct is appropriate for a Board of Education member. Board members should exercise care in setting appropriate boundaries between their personal and public online behavior, understanding what is private in the digital world often has the possibility of becoming public, even without their knowledge or consent.

Board members should carefully review the privacy settings on social networks they use and exercise care and good judgment when posting content and information. When using social networks, Board members are advised to:

- Not post anything that would violate any of the district's policies for Board members;
- 2. Uphold the district's value of respect for any individual(s) and avoid making defamatory statements about the Board of Education, the school district, employees, students, or their families;
- Not disclose any confidential information about the school district or confidential information obtained as a result of being a Board member, about any individual(s) or organization, including students and/or their families;

- 4. Not use or refer to their Board of Education title or position when soliciting for a business organization that he or she or any immediate family member has an interest in, as well as posting or referencing any confidential information regarding the Board of Education or the school district obtained through their Board membership, unless authorized by law;
- 5. Refrain from having communications through social networks with other Board members regarding any Board of Education business to avoid any potential violation of the New Jersey Open Public Meetings Act;
- 6. Not respond to any postings regarding Board of Education or school district business or respond to any question or inquiry posted to the Board member or posted on any social network regarding Board of Education or school district business and shall refer any such questions or inquiries to the Superintendent of Schools to address, as appropriate; or
- 7. Not post any information on a social network determined by the New Jersey School Ethics Commission to be a violation of the New Jersey School Ethics Act.

A Board member shall comply with all Board policies regarding acceptable use of computers and computer networks whenever a Board member is using a Board of Education electronic device.

If the Board or Superintendent believes a Board member's activity on any social network may violate the Board's policies or the New Jersey School Ethics Act, the Board or Superintendent may request the Board member cease such activity.

Acceptable Use of Generative
Artificial Intelligence (AI)

2365 ACCEPTABLE USE OF GENERATIVE ARTIFICIAL INTELLIGENCE (AI)

The Board of Education recognizes the use of artificial intelligence (AI) may result in increased and enhanced learning opportunities for students in the school district and may support the instructional, administrative, and operational goals of District employees. This policy outlines the acceptable and responsible use of AI tools by both staff and students to promote ethical, safe, and productive engagement with AI technologies in an educational setting.

The Board recognizes the potential of AI tools to enhance and transform both the student learning experience and staff professional practice. For students, AI can offer support in learning, creativity, collaboration, and skill-building. For staff, AI presents opportunities to improve instructional design, personalize learning, streamline administrative processes, and support data-informed decision-making.

However, AI tools are not inherently knowledgeable—they are trained on large datasets from various sources and may produce outputs that are inaccurate, inappropriate, or incomplete. AI may be used as a support but never a substitute for human expertise and professional judgment.

To ensure responsible use and maintain academic integrity and standards of professional responsibility, this policy must be followed in conjunction with the district's existing policies, including the Acceptable Use of Technology (Policy 2361) and Academic Integrity (Policy 5701), as well as any other applicable board policies and regulations.

1. Definitions.

"Artificial intelligence" (AI) means all types of generative AI technologies that create new content or outputs from a prompt to produce text, images, videos, music, or other media.

PATERSON BOARD OF EDUCATION

PROGRAM 2365/Page 2 of 5

Acceptable Use of Generative Artificial Intelligence (AI)

"AI tools" means Software applications and platforms that utilize AI technologies to perform specific tasks and solve problems that typically require human intelligence.

"Assignment" means any task or work required of a student as part of the student's educational and co-curricular program in the district.

"Instructional use" means the application of AI tools by educators to support lesson planning, content creation, personalized learning, formative assessment, and instructional delivery.

"Administrative use" means the application of AI tools by staff to support non-instructional responsibilities such as communication, scheduling, document generation, data analysis, and workflow management.

"Generative AI" is a subset of AI technologies that can generate new content in response to user prompts, including essays, reports, code, images, and audio.

"Human oversight" means active engagement by a staff member or student to review, verify, and, when appropriate, modify AIgenerated output to ensure its accuracy, appropriateness, and alignment with educational or professional standards.

"Attribution" means clear acknowledgment of the use of AI tools in the production of an assignment or work product, using proper citation or documentation methods as directed by district guidelines.

- 2. Acceptable uses of AI.
 - A. Staff may use AI tools to:

PATERSON BOARD OF EDUCATION

PROGRAM
2365/Page 3 of 5
Acceptable Use of Generative
Artificial Intelligence (AI)

- a. Support instruction: design lessons, develop materials, differentiate instruction, and scaffold content for diverse learners.
- b. Enhance productivity: draft communications, create agendas or reports, and streamline repetitive tasks (e.g., formatting, data entry).
- c. Analyze data: support data visualization, interpret trends, and guide interventions—with final conclusions made by humans.
- d. Personalize support: translate communications for families, assist with accessibility tools, or tailor resources to meet specific student needs.
- e. Innovate thoughtfully: experiment with new technologies in instructional or administrative contexts, with oversight and transparency.
- B. Students may use AI tools to:
 - a. Aid learning: summarize content, conduct research, receive grammar suggestions, or explore alternative explanations of concepts.
 - b. Enhance creativity: brainstorm ideas, generate multimedia content, or support the creation of projects—while maintaining originality.
 - c. Support communication: draft reports, emails, and presentations, with final work reviewed and refined by the student.
 - d. Assist with coding: learn programming concepts, debug errors, or prototype simple applications—with teacher guidance.

PROGRAM
2365/Page 4 of 5
Acceptable Use of Generative
Artificial Intelligence (AI)

3. Unacceptable uses of AI.

The following uses of AI are prohibited for all users unless explicitly permitted by a teacher, administrator, or policy exception:

- A. Academic dishonesty: using AI to complete assignments, tests, or projects without proper attribution or approval.
- B. Bypassing learning: relying on AI to perform tasks that are intended to build foundational skills or critical thinking.
- C. Plagiarism or misrepresentation: presenting AI-generated work as entirely one's own without acknowledgment or attribution.
- D. Violation of privacy: entering personally identifiable information (PII), protected health information (PHI), or confidential school records into AI tools.
- E. Creating harmful content: using AI to generate offensive, biased, discriminatory, violent, malicious, pornographic, obscene, or otherwise inappropriate materials.
- F. Unmonitored automation: allowing AI to make decisions regarding grades, student placement, discipline, or evaluations without human oversight.

4. Guidelines for responsible use.

All users are expected to be transparent about their use of AI by clearly disclosing when and how AI tools were used in any submitted work or professional task, in accordance with teacher or administrator guidelines. Any content generated by AI must be verified for factual accuracy, appropriateness, and consistency with district values. When students use AI tools in assignments,

PATERSON BOARD OF EDUCATION

PROGRAM
2365/Page 5 of 5

Artificial Intelligence (AI)

they are required to include proper citations or documentation to indicate the AI's role in the work. AI-generated content should always be subject to human oversight, meaning that staff and students must actively review and use their judgment to ensure the quality and relevance of the output. Finally, all AI use must align with the district's existing policies, including but not limited to the Acceptable Use of Technology (Policy 2361) and Academic Integrity (Policy 5701).

5. Educator and administrator discretion.

Educators and administrators may restrict, guide, or expand the use of AI based on the age of the student, the nature of the assignment or work task, or educational relevance. They may also require documentation of how AI was used in any given task or project.

6. Consequences for misuse.

For students, violations may result in redoing assignments, reduced grades, loss of technology privileges, or other disciplinary actions in accordance with the Code of Student Conduct.

For staff, violations of this policy may lead to corrective action up to and including disciplinary measures, consistent with district policies and any applicable collective bargaining agreements.

2460.10 RELATED SERVICES

Related Services may be provided to student's ages three (3) through twelfth (12th) grade who are eligible for special education and related services. Related services in grades K-12 include speech/language, occupational and physical therapies, counseling, nursing services, and special transportation, etc.

Recording of All Related Services

A log will be entered for any direct related service provided to a student. The log will also evidence missed sessions for student absences, therapist absence or any other reason a student missed a session.

Student logs will include the date the student was serviced including the duration, group size, skill, and progress of each session.

Missed Related Services

It is the school district's responsibility to ensure a Free and Appropriate Public Education (FAPE) is made available in accordance with the amount of service outlined on a student's IEP. Time missed, and the impact of the missed session will be made up over the course of the school year and documented as a make-up session in the Related Services Student Log if it has been determined that the missed session impacts the student's right to FAPE.

Missed sessions are made up when:

- There is a provider vacancy or long-term leave.
- The provider misses sessions due to their own absenteeism during the school year.

*Given a significant break in services due to a combination of scenarios, consideration of make-up time will be made on a case-by-case basis.

PATERSON BOARD OF EDUCATION

PROGRAM 2460.10/Page 2 of 2 Related Services

Missed sessions are not made up when:

- The student is absent.
- The student does not attend school due to parent or family initiated activities.
- The students' school is closed: Services scheduled for a child during a school closure or during the hours of a delayed opening or an early release are excused and do not require a make-up session.
- The student is participating in assemblies, field trips, districtwide and statewide assessments and similar activities.

Free Appropriate Public Education

The provider shall reschedule all missed sessions where it is determined the missed session(s) will impact the student's right to FAPE. The make-up sessions will be clearly documented in the Related Services Student Log.

Independent Educational Evaluations

2468 INDEPENDENT EDUCATIONAL EVALUATIONS

Special education law permits a parent to request an independent educational evaluation (IEE) for their child if there is disagreement with any evaluation provided by the Board of Education. An "independent educational evaluation" is an evaluation conducted by a qualified examiner who is not an employee of the public school district responsible for the education of the child in question. Such IEEs shall be provided at no cost to the parent unless the school district initiates a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7, et seq. to show that its evaluation is appropriate and a final determination to that effect is made following a hearing. If it is determined the school district's evaluation is appropriate, the parent still has the right to an IEE, but not at the school district's expense.

Upon receipt of a parental request for an IEE, the school district shall provide the parent with information about where an IEE may be obtained and the criteria for IEEs according to N.J.A.C. 6A:14-2.5(c)(3) and (c)(4) and the additional criteria outlined in this Policy.

Criteria for Independent Evaluations at District Expense:

- 1. Any IEE paid with public funds shall:
 - a. Be conducted according to the provisions of N.J.A.C.6A:14-3.4; and
 - b. Be obtained from another public school district, educational services commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately certified and/or licensed, where a license is required.
- 2. An independent medical examination may be obtained according to N.J.A.C. 6A:14-5.1(e).
- 3. The Board will not pay for an IEE unless it complies with the following criteria unless the parent can show that unique circumstances warrant deviation from same. These criteria are the same as those used by the District in selecting evaluators for District-initiated assessments:

PATERSON BOARD OF EDUCATION

PROGRAM
2468/Page 2 of 4
Independent Educational Evaluations

- a. The independent evaluator must be appropriately certified and/or licensed in the State of New Jersey. In instances where no applicable certification/license exists, the evaluator must provide the Board with documentation of extensive and recent training and experience related to the assessment of the known or suspected disability;
- b. The independent evaluator may only charge fees for educational services that, in the judgment of the Board, are reasonable and customary in accordance with Paragraph 4 below;
- c. The independent evaluator must be free from any conflict of interest;
- d. The independent evaluator and members of the Child Study Team must be permitted to directly communicate and share information with each other. The independent evaluator must also agree to release the assessment information, results, and report(s) to the school district prior to receipt of payment for services;
- e. For any independent evaluation, whether paid for with public or private funds, the school district shall permit the evaluator to observe the pupil in the classroom or other educational setting, as applicable; and
- f. The independent evaluator shall make at least one contact with the pupil's case manager for purpose of determining how the pupil is progressing in his/her current programming.

The maximum allowable cost for an independent evaluation will be limited to the reasonable and customary rate for New Jersey, as determined by the Board periodically. This rate shall be in the range of what it would cost the Board to provide the same type of school assessment through either another public school district, educational services commission, jointure commission, a clinic or agency approved under N.J.A.C. 6A:14-5, or private practitioner, who is appropriately

certified and/or licensed, where a license is required. The maximum fee will not simply be an average of the fees customarily charged in the area but will be established so that it allows parents to choose from among the qualified professionals in the Collingswood area while eliminating unreasonably excessive fees. This Board approved rate shall be provided to the parent upon their request for an IEE. The Board shall not be responsible for any costs beyond the IEE, such as transportation, lodging, food, etc.

The parent may provide documentation to the Board demonstrating unique circumstances to justify an IEE that exceed the maximum allowable cost established by the Board and set forth in the Special Education Independent Educational Evaluation Fee Schedule ("Fee Schedule") set forth herein established by the Board. If, in the Board's judgment, there is no justification for the excess cost, the Board may agree to fund the IEE up to the school district's maximum allowable cost as set forth in the Fee Schedule with the parent responsible for the remaining cost. In the alternative, the Board may request a due process hearing to enforce its established maximum allowable cost.

Additional Considerations

Upon receipt of a parental request for an IEE, the school district shall take steps to ensure the IEE is provided without undue delay or not later than twenty calendar days after receipt of the parental request, the school district shall request a due process hearing in accordance with the provisions of N.J.A.C. 6A:14-2.7, et seq., to show that its evaluation is appropriate.

If a parent requests an IEE, the school district may ask the parent to explain why he or she objects to the school district's evaluation. However, the school district shall not require an explanation and shall not delay either providing the IEE or instituting a due process hearing to defend the school district's evaluation.

Any IEE submitted to the district, including an IEE obtained by the parent at private expense, shall be considered in making decisions regarding special education and related services.

Independent Educational Evaluations

If an Administrative Law Judge orders that an IEE be conducted, the IEE shall be obtained by the district in accordance with the decision or Order of the Administrative Law Judge, and the Board of Education shall pay the cost of the IEE in accordance with the provisions of this Policy.

A parent is entitled to only one IEE paid for by the Board each time the school district conducts an evaluation with which the parent disagrees.

In accordance with this Policy, the Paterson Board of Education requires all independent educational evaluations to adhere to New Jersey Regulations (6A:14-3) regarding professional license and certifications issued by the New Jersey Department of Education and N.J.A.C. 6A:14-2.5, with respect to protections in the evaluations procedures.

A parent is entitled to only one IEE paid for by the Board each time the school district conducts an evaluation with which the parent disagrees.

The records should be kept until the end of the school year in which the grades were awarded and, then forwarded to the Principal for retention.

- 6. Any notations recording communications between the teacher and the parent(s) or legal guardian(s), the Principal, or other teaching staff members.

G. Appeal

PATERSON SCHOOL DISTRICT

PROGRAM R2624 Page 7 of 8 Grading System

- 1. 1. Each teacher is responsible for the determination of the grade a pupil receives.
- 2. Each teacher may be required to furnish reasons, supported by evidence (see E above) to substantiate any grade earned.
- 3. If a grade is challenged by a pupil or a parent(s) or legal guardian(s), the teacher will convene a conference and will explain the grading system and the reasons for the final grade.
- 4. If the parent(s) or legal guardian(s) or pupil is not satisfied by the teacher's explanations, he/she may appeal the grade to the Principal, who will consult with the teacher and the pupil in an attempt to resolve the dispute. The Principal will give every reasonable deference to the teacher's professional judgment.
- 5. If the Principal determines that the grade should be changed, he/she will alter the grade on all records and indicate by whose authority the grade has been changed.
- 6. No reprisals will be taken in any form against a teacher who remains determined in his/her belief that the grade originally given is fair and correct.
- 7. The Superintendent may hear an appeal from the Principal's determination. Only in the most extraordinary circumstances will the Superintendent alter a grade determined at the school building level.

H. H. Grading Policy Review

The Superintendent or designee will review the grading policy every three years. If policy revisions are deemed necessary, the Superintendent or designee will do so in consultation with district stakeholders.

Any such warning signs or the report of such warning signs from another student or staff member shall be taken with the utmost seriousness and reported immediately to the Principal or designee.

Based on the preliminary assessment, the parent(s) may be required to obtain medical or psychiatric services for the event the parent(s) objects to student. In the recommendation or indicates an unwillingness to cooperate in the best interests of the student, the Principal or designee will contact the New Jersey Department of Children and Families, Division of Child Protection and Permanency to intervention on the student's behalf.

- A. Prohibiting Harassment, Intimidation, or Bullying

The Board of Education prohibits acts of harassment, intimidation, or bullying of a student. The Board has determined that a safe and civil environment in school is necessary for students to learn and achieve high academic standards; harassment, intimidation, or bullying, like other disruptive or violent behaviors, is conduct that disrupts both a student's ability to learn and a school's ability to educate its students in a safe and disciplined environment. Since students learn by example, school administrators, faculty, staff, and volunteers should be commended for demonstrating appropriate behavior, treating others with civility and respect, and refusing to tolerate harassment, intimidation, or bullying.

For the purposes of this Policy, the term "parent," pursuant to N.J.A.C. 6A:16-1.3, means the natural parent(s); adoptive parent(s); legal guardian(s); resource family parent(s); or surrogate parent(s) of a student. When parents are separated or divorced, "parent" means the person or agency which has legal custody of the student, as well as the natural or adoptive parent(s) of the student, provided parental rights have not been terminated by a court of appropriate jurisdiction.

B. Definition of Harassment, Intimidation, or Bullying

"Harassment, intimidation, or bullying" means any gesture, any written, verbal or physical act, or any electronic

PATERSON BOARD OF EDUCATION

PUPILS
5512/Page 3 of 32
Harassment, Intimidation, and Bullying
M

communication, as defined in N.J.S.A. 18A:37-14, whether it be a single incident or a series of incidents that:

- 1. Is reasonably perceived as being motivated by either any actual or perceived characteristic, such as race, color, religion, ancestry, national origin, gender, sexual orientation, gender identity and expression, or a mental, physical or sensory disability, or by any other distinguishing characteristic;
- 2. Takes place on school property, at any school-sponsored function, on a school bus, or off school grounds, as provided for in N.J.S.A. 18A:37-15.3;
- Substantially disrupts or interferes with the orderly operation of the school or the rights of other students; and that
 - a. A reasonable person should know, under the circumstances, that the act(s) will have the effect of physically or emotionally harming a student or damaging the student's property, or placing a student in reasonable fear of physical or emotional harm to their person or damage to their property; or
 - b. Has the effect of insulting or demeaning any student or group of students; or
 - c. Creates a hostile educational environment for the student by interfering with a student's education or by severely or pervasively causing physical or emotional harm to the student.

The Board of Education recognizes that bullying is unwanted, aggressive behavior that may involve a real or perceived power imbalance. Recognizing "a real or perceived power imbalance" may assist school officials in identifying

PATERSON BOARD OF EDUCATION

PUPILS 5512/Page 4 of 32 Harassment, Intimidation, and Bullying $\bf M$

harassment, intimidation, or bullying within the context and relative positions of the alleged aggressor and target.

"Electronic communication" means a communication transmitted by means of an electronic device, including, but not limited to, a telephone, cellular phone, computer, or remotely activating paging device in accordance with N.J.A.C. 6A:16-1.3.

In accordance with the Board's Code of Student Conduct and this Policy, all acts of harassment, intimidation, or bullying that occur off school grounds, such as "cyberbullying" (e.g., the use of electronic means to harass, intimidate, or bully) are addressed in this Policy.

C. Student Behavior

The Board of Education expects students to conduct themselves in keeping with their levels of development, maturity, and demonstrated capabilities, with a proper regard for the rights and welfare of other students and school staff, the educational purpose underlying all school activities and the care of school facilities and equipment, consistent with the Code of Student Conduct.

The Board believes that standards for student behavior must be set cooperatively through interaction among the parents and other community representatives, school administrators, school employees, school volunteers, and students of the school district, producing an atmosphere that encourages students to grow in self-discipline. The development of this atmosphere requires respect for self and others, as well as for school district and community property on the part of students, staff, and community members.

Students are expected to behave in a way that creates a supportive learning environment. The Board believes the best discipline is self-imposed, and that it is the

M

responsibility of staff to use instances of violations of the Code of Student Conduct as opportunities for helping students learn to assume and accept responsibility for their behavior and the consequences of their behavior. Staff members who interact with students shall apply best practices designed to prevent student conduct problems and foster students' abilities to grow in self-discipline.

The Board expects students will act in accordance with the student behavioral expectations and standards regarding harassment, intimidation, or bullying, including:

- Student responsibilities (e.g., requirements for students to conform to reasonable standards of socially accepted behavior; respect the person, property, and rights of others; obey constituted authority; and respond to those who hold that authority);
- Appropriate recognition for positive reinforcement for good conduct, self-discipline, and good citizenship;
- 3. Student rights; and
- 4. Sanctions and due process for violations of the Code of Student Conduct.

Pursuant to N.J.S.A. 18A:37-15(a) and N.J.A.C. 6A:16-7.1(a)1, the district has involved a broad-base of school and community members, including parents, school employees, volunteers, students, and community representatives, in the development of this Policy.

Pursuant to N.J.A.C. 6A:16-7.1, the Board developed guidelines for student conduct, taking into consideration the nature of the behavior; the nature of the student's disability, if any and to the extent relevant; the developmental ages of students; severity of the offenses and students' histories of inappropriate behaviors; and the

M

mission and physical facilities of the individual school(s) in the district. This Policy requires all students in the district to adhere to the rules established by the school district and to submit to the remedial and consequential measures that are appropriately assigned for infractions of these rules.

Pursuant to N.J.A.C. 6A:16-7.1, the Superintendent shall annually provide to students and their parents the rules of the district regarding student conduct. Provisions shall be made for informing parents whose primary language is other than English.

The district prohibits active or passive support for acts of harassment, intimidation, or bullying. The school district will support students who:

- 1. Walk away from acts of harassment, intimidation, or bullying when they see them;
- Constructively attempt to stop acts of harassment, intimidation, or bullying;
- 3. Provide support to students who have been subjected to harassment, intimidation, or bullying; and
- 4. Report acts of harassment, intimidation, or bullying to the designated school staff member.
- D. Consequences and Remedial Actions

The Board of Education requires its school administrators to implement procedures that ensure both the appropriate consequences and remedial responses for students who commit one or more acts of harassment, intimidation, or bullying, consistent with the Code of Student Conduct, and the consequences and remedial responses for staff members who

M

commit one or more acts of harassment, intimidation, or bullying.

In every incident found to be harassment, intimidation, or bullying, the school Principal, in consultation with appropriate school staff, may apply disciplinary consequences and/or remedial actions, such as the provision of counseling, behavioral interventions, or other measures.

Appropriate consequences and remedial actions are those that are graded according to the severity of the offenses; consider the developmental ages of the student offenders; the nature of the student's disability, if any and to the extent relevant; and students' histories of inappropriate behaviors, per the Code of Student Conduct and N.J.A.C. 6A:16-7.

The following factors, at a minimum, shall be given full consideration by the school administrators in the implementation of appropriate consequences and remedial measures for each act of harassment, intimidation, or bullying by students.

Factors for Determining Consequences

- Age, disability (if any and to the extent relevant), developmental and maturity levels of the parties involved and their relationship to the school district;
- Degrees of harm;
- Surrounding circumstances;
- Nature and severity of the behaviors;
- Incidences of past or continuing patterns of behavior;
- Relationships between the parties involved; and

consequences and/or remedial actions and may require the student, accompanied by a parent, to satisfactorily complete a class or training program to reduce harassment, intimidation, or bullying behavior. Each student intervention plan must be approved by the Superintendent.

While the majority of incidents may be addressed solely by school officials, the Superintendent or designee and the Principal shall report a harassment, intimidation, or bullying incident to law enforcement officials if the conduct rises to the level of a mandatory report as outlined in the Uniform State Memorandum of Agreement Between Education and Law Enforcement Officials.

The district will also impose appropriate consequences and remedial actions to an adult who commits an act of harassment, intimidation, or bullying of a student. E. Reporting Harassment, Intimidation, or Bullying

The Board of Education requires the Principal at each school to be responsible for receiving all complaints alleging harassment, intimidation, or bullying committed by an adult or youth against a student. All Board members, school employees, and volunteers and contracted service providers who have contact with students, are required to verbally report alleged acts of harassment, intimidation, or bullying to the Principal or designee on the same day when the

PATERSON BOARD OF EDUCATION

PUPILS
5512/Page 13 of 32
Harassment, Intimidation, and Bullying
M

individual witnessed or received reliable information regarding any such incident. All Board members, school employees, and contracted service providers who have contact with students, also shall submit a New Jersey Department of Education-approved HIB 338 Form to the Principal within two school days of the verbal report. Failure to make the required report(s) may result in disciplinary action. The HIB 338 Form shall be kept on file at the school, but shall not be included in any student record unless the incident results in disciplinary action or is otherwise required to be contained in a student's record under State or Federal Law.

The district may not fail to initiate an investigation of harassment, intimidation, or bullying solely because written documentation was not provided. Failing to conduct a harassment, intimidation, or bullying investigation solely because a parent or student did not submit written documentation violates the Anti-Bullying Bill of Rights Act and this Policy. If a parent makes a verbal allegation of harassment, intimidation, or bullying to a district staff member, but does not complete and submit the HIB 338 Form, the staff member or a designee must complete and submit the HIB 338 Form.

The Principal or designee is required to inform the parents of all students involved in alleged incidents, and, as appropriate, may discuss the availability of counseling and other intervention services. Pursuant to N.J.A.C. 6A:16-7.7(a)2.viii.(2), when providing notification to the parents of all students involved, the Principal or designee shall take into account the circumstances of the incident when conveying the nature of the incident, including the actual or perceived category motivating the alleged offense. The Principal or designee shall keep a written record of the date, time, and manner of notification to the parents.

PATERSON BOARD OF EDUCATION

PUPILS 5512/Page 14 of 32 Harassment, Intimidation, and Bullying

The Principal, upon receiving a verbal or written report, may take interim measures to ensure the safety, health, and welfare of all parties pending the findings of the investigation.

Students, parents, and visitors are encouraged to report alleged acts of harassment, intimidation, or bullying to the Principal or designee on the same day when the individual witnessed or received reliable information regarding any such incident. The school district shall provide a person an online means to complete the HIB 338 Form to anonymously report an act of harassment, intimidation, or bullying. Formal action for violations of the Code of Student Conduct may not be taken solely on the basis of an anonymous report.

A Board member or school employee who promptly reports an incident of harassment, intimidation, or bullying and who makes this report in compliance with the procedures set forth in this Policy, is immune from a cause of action for damages arising from any failure to remedy the reported incident.

The Principal shall promptly submit a copy of each completed HIB 338 Form to the Superintendent.

The district may consider every mechanism available to simplify reporting, including standard reporting forms and/or web-based reporting mechanisms. For anonymous reporting, in addition to making the HIB 338 Form available online, the district may consider locked boxes located in areas of a school where reports can be submitted without fear of being observed.

A school administrator who receives a report of harassment, intimidation, or bullying or who determines a reported incident or complaint, assuming all facts presented are true, is a report within the scope of N.J.S.A. 18A:37-14 and fails to initiate or conduct an investigation, or who should

PATERSON

BOARD OF EDUCATION

PUPILS 5512/Page 15 of 32 Harassment, Intimidation, and Bullying $_{\mbox{\scriptsize M}}$

have known of an incident of harassment, intimidation, or bullying and fails to take sufficient action to minimize or eliminate the harassment, intimidation, or bullying, may be subject to disciplinary action. The district also should consider procedures and disciplinary action when it is found that someone had information regarding a harassment, intimidation, or bullying incident, but did not make the required report(s).

- F. Anti-Bullying Coordinator, Anti-Bullying Specialist, and School Safety/School Climate Team(s)
 - 1. The Superintendent shall appoint a district Anti-Bullying Coordinator. The Superintendent shall make every effort to appoint an employee of the school district to this position.

g. Execute such other duties related to harassment, intimidation, or bullying as requested by the Principal or district Anti-Bullying Coordinator.

Notwithstanding any provision of N.J.S.A. 18A:37-21 to the contrary, a parent who is a member of the School Safety/School Climate Team shall not participate in the activities of the team set forth in 3. a., b., or c. above or any other activities of the team which may compromise the confidentiality of a student, consistent with, at a minimum, the requirements of the Family Educational Rights and Privacy Act (20 USC 1232 and 34 CFR Part 99), N.J.A.C. 6A:32-7, Student Records and N.J.A.C. 6A:14-2.9, Student Records.

G. Investigating Allegations of Harassment, Intimidation, or Bullying

Investigate All Reports

The Board of Education requires a thorough and complete investigation to be conducted for each report of an alleged incident of harassment, intimidation, or bullying. All details of an alleged incident must be populated into the HIB 338 Form. However, completing the form shall not delay beginning the investigation in accordance with the law.

The HIB 338 Form shall be kept on file at the school and will only be added to a student record if the alleged incident is founded, disciplinary action is imposed or is otherwise required to be contained in a student's record under State or Federal law.

The investigation shall be initiated by the Principal or designee within one school day of the verbal report of the

M

incident. The investigation shall be conducted by the school Anti-Bullying Specialist appointed by the Principal. The Principal may appoint additional personnel who are not school Anti-Bullying Specialists to assist the school Anti-Bullying Specialist in the investigation. Investigations of complaints concerning adult conduct shall not be investigated by a member of the same bargaining unit as the individual who is the subject of the investigation. The Anti-Bullying Specialist may not participate in an investigation regarding their supervisor or staff at a higher administrative level.

The investigation shall be completed, and the written findings submitted to the Principal as soon as possible, but not later than ten school days from the date of the written report of the alleged incident of harassment, intimidation, or bullying or from the date of the written notification from the Superintendent to the Principal to initiate an investigation. Should information regarding the reported incident and the investigation be received after the end of the ten-day period, the school Anti-Bullying Specialist or the Principal shall amend the original report of the results of the investigation to ensure there is an accurate and current record of the facts and activities concerning the reported incident.

The Principal shall proceed in accordance with the Code of Student Conduct, as appropriate, based on the investigation findings. The Principal shall submit the report to the Superintendent within two school days of the completion of the investigation and in accordance with the Administrative Procedures Act (N.J.S.A. 52:14B-1 et seq.). As appropriate to the findings from the investigation, the Superintendent shall ensure the Code of Student Conduct has been implemented and provide intervention services; order counseling; establish training programs to reduce harassment, intimidation, or bullying and enhance school

climate; or take or recommend other appropriate action, including seeking further information as necessary.

The Superintendent shall report the results of each investigation to the Board no later than the date of the regularly scheduled Board meeting following the completion of the investigation. The Superintendent's report also shall include information on any consequences imposed under the Code of Student Conduct; intervention services provided; counseling ordered; training established; or other action taken or recommended by the Superintendent.

Parents of students who are parties to the investigation shall be provided with information about the investigation, in accordance with Federal and State law and regulation. The information to be provided to parents includes the nature of the investigation, whether the district found evidence of harassment, intimidation, or bullying, or whether consequences were imposed or services provided to address the incident of harassment, intimidation, bullying. This information shall be provided in writing within five school days after the results of the investigation are reported to the Board. The district may not divulge personally identifying information or information that could result in the identification of any student other than the child of the parents being notified.

A parent may request a hearing before the Board after receiving the information. Any request by the parents for a hearing before the Board concerning the written information about a harassment, intimidation, or bullying investigation, pursuant to N.J.S.A. 18A:37-15b(6)(d), must be filed with the Board Secretary no later than sixty calendar days after the written information is received by the parents. The hearing shall be held within ten business days of the request. Prior to the hearing, the Superintendent shall confidentially share a redacted copy of the HIB 338 Form that removes all student identification information with the

H. Responding to Harassment, Intimidation, or Bullying

The Board of Education authorizes the Principal of each school to define the range of ways in which school staff will respond once an incident of harassment, intimidation, or bullying is confirmed, and the Superintendent shall respond to confirmed harassment, intimidation, or bullying, according to the parameters described below and in this Policy. The Board recognizes that some acts of harassment, intimidation, or bullying may be isolated incidents requiring that the school officials respond appropriately to the individual(s) committing the acts. Other acts may be so serious or parts of a larger pattern of harassment, intimidation, or bullying that they require a response either at the classroom, school building, or school district levels or by law enforcement officials. Consequences and appropriate remedial actions for a student who commits an act of harassment, intimidation, or bullying may range from positive behavioral interventions up to and including suspension or expulsion, as permitted under N.J.S.A. 18A:37, Discipline of Pupils and as set forth in N.J.A.C. 6A:16-7.2, Short-term suspensions, N.J.A.C. 6A:16-7.3, Long-term suspensions, and N.J.A.C. 6A:16-7.4, Expulsions.

In considering whether a response beyond the individual is appropriate, school officials shall consider the nature and circumstances of the act; the degree of harm; the nature and severity of the behavior; past incidences or past or continuing patterns of behavior; and the context in which the alleged incident(s) occurred. Institutional (i.e., classroom, school building, school district) responses can range from school and community surveys, to mailings, to focus groups, to adoption of research-based harassment, intimidation, or bullying prevention program models, to training for certificated and non-certificated staff, to participation of parents and other community members and organizations, to small or large group presentations for

fully addressing the actions and the school's response to the actions, in the context of the acceptable student and staff member behavior and the consequences of such actions, and to the involvement of law enforcement officers, including safe schools resource officers.

This Policy and the Code of Student Conduct shall apply to instances when a school employee is made aware of alleged harassment, intimidation, or bullying occurring off school grounds.

For every incident of harassment, intimidation, or bullying, the school officials must respond appropriately to the individual who committed the act. The range of responses to confirmed harassment, intimidation, or bullying acts should include individual, classroom, school, or district responses, as appropriate to the findings from each incident. Examples of responses that apply to each of these categories are provided below:

- Individual responses can include positive behavioral interventions (e.g., peer mentoring, short-term counseling, life skills groups) and punitive actions (e.g., detention, in-school or out-of-school suspension, expulsion, law enforcement report or other legal action).
- 2. Classroom responses can include class discussions about an incident of harassment, intimidation, or bullying, role plays, research projects, observing and discussing audio-visual materials on these subjects, and skillbuilding lessons in courtesy, tolerance, assertiveness, and conflict management.
- 3. School responses can include theme days, learning station programs, parent programs, and information disseminated to students and parents, such as fact sheets or newsletters explaining acceptable uses of

electronic and wireless communication devices or strategies for fostering expected student behavior.

District-wide responses include 4. can community and development; involvement in policy review development professional programs; adoption curricula and school-wide programs; coordination with community-based organizations (e.g., mental health, health services, health facilities, law enforcement faith-based organizations); officials. disseminating information on the core ethical values adopted by the Board's Code of Student Conduct, per N.J.A.C. 6A:16-7.1(a)2.

- Counseling;
- Teacher Aides;
- Hallway and playground monitors;

5516 USE OF ELECTRONIC COMMUNICATION DEVICES

To support school environments in which students can fully engage with their classmates and their teachers, and to focus attention upon instruction, the Board of Education has determined the use of cell phones and other electronic communication devices by students for personal use during the school day and school activities should be limited.

As used in this Policy, "electronic communication device" includes any device with the capability to audio or video record and/or is capable of receiving or transmitting any type of communication with others. An electronic communication device includes, but is not limited to, any type of cameras; cellular and wireless telephones; pagers/beepers; laptop computers; watches; electronic readers; two-way radios; any audio or video broadcasting devices; ear buds; tablets; headphones; and any other device that allows a person to audio and/or video record and/or transmit, in either a real time or a delayed basis, video or still images, text, audio recordings; or other information.

The Board adopts Regulation 5516 and this Policy to address student use of an electronic communication device for personal use on school grounds during the school day, to also include, but not be limited to: during before and after school programs; during any co-curricular activity; and on a school bus.

Nothing in Regulation 5516 and this Policy shall prohibit a student from using an electronic communication device for a purpose documented in a classified student's Individualized Education Plan (IEP) or a plan developed under Section 504 of the "Rehabilitation Act of 1973," 29 USC 794. A student may use an electronic communication device to monitor or address a health condition with prior permission from the Principal, in consultation with the school nurse to be documented in the student's Individual Health Plan.

PATEIRSON BOARD OF EDUCATION

PUPILS 5516/Page 2 of 2 Use of Electronic Communication Devices

In addition, the Board believes students and/or school staff members should not be subject to having any type of recording taken of any student(s) or school staff member(s) for any purpose without the consent of the student and the student's parent or the school staff member. In addition to protecting the privacy rights of students and school staff members, the Board recognizes such recordings can be disruptive to the educational program. Inappropriate recordings of educational material, student assessment instruments, and/or student assessment reviews can be used to compromise the integrity of the district's educational program or lead to academic dishonesty in the event such recordings are stored and/or transmitted to other students.

P-Tech Planetarium

7510.01 P-TECH PLANETARIUM

The planetarium theater at P-Tech High School provides an immersive learning environment that engages students in Earth and space sciences, STEAM education, and related disciplines, contributing to their academic growth and curiosity. The Board of Education recognizes the planetarium as an invaluable educational resource for both the students of Paterson Public Schools and the broader community.

In addition to serving the District's students, the planetarium will be available to external organizations, institutions, and community groups for educational purposes. The availability of the planetarium to external entities will help foster new partnerships, provide opportunities for community engagement, and generate revenue to sustain operations, maintain state-of-the-art equipment, and support future programming. Accordingly, it is the intent of this policy that revenues generated by the planetarium be retained by the planetarium for facility and equipment maintenance and programming purposes.

To ensure the planetarium's sustainability and continued growth, this policy establishes general use guidelines and procedures, as well as a pricing schedule for use by individuals, organizations, and schools other than the District's students and its schools.

For purposes of this policy, "internal user" means all schools and students within Paterson Public Schools, and "external user" means all other individuals, organizations, and schools.

1. Scheduling and Fees.

The Planetarium Manager will oversee the scheduling of all planetarium events. The District reserves the right to cancel, modify, or terminate a scheduled reservation at its discretion. If the District cancels a scheduled reservation for operational or physical emergency, it will make every effort to offer a suitable alternate date for the event.

- 2. Make every effort to ensure that students receiving subsidized school meals are not identified, by the student body, faculty, or staff, in a manner that is distinct from the manner in which students receiving unsubsidized school meals are identified as program participants. Such efforts shall include, but need not be limited to, the establishment of a neutral meal plan or voucher system that does not make a distinction between these two groups of students; and
- 3. To the greatest extent practicable:
 - a. Facilitate and expedite the prompt and accurate identification of categorically eligible students who may be certified to receive subsidized school meals without first submitting an application therefor, and, whenever an application is required to establish income eligibility for subsidized meals, encourage students and their families to submit a subsidized school meals application for that purpose;

- b. Facilitate and expedite the subsidized school meals application and income eligibility determination processes that are used, by the school or school district, to certify a student for subsidized school meals on the basis of income, and assist parents in completing the subsidized school meals application; and

In accordance with N.J.S.A. 18A:33-24, if fifty percent or more of the students enrolled in the school district on or before the last school day before October 16 of the preceding school year were Federally eligible for free or reduced price meals under the National School Lunch Program or the Federal School Breakfast Program, the district shall become a sponsor or site under the Federal Summer Food Service Program or apply for a waiver pursuant to N.J.S.A. 18A:33-26.

In accordance with N.J.S.A. 18A:33-23, the district shall notify each student enrolled in the school district and the student's parent of the availability of, and criteria of eligibility for, the summer meals program and the locations in the district where the summer meals are available. The district shall provide this notification by distributing flyers provided by the New Jersey Department of Agriculture (NJDOA) pursuant to N.J.S.A. 18A:33-23.c. The district may also provide electronic notice of the information through the usual means by which the district communicates with parents and students electronically.

Pursuant to N.J.S.A. 18A:33-26.a., the NJDOA may grant a waiver of the requirements of N.J.S.A. 18A:33-24 et seq. To be granted a waiver, the district must show that it lacks the staff, facilities, or equipment to sponsor the Federal Summer Food Service Program, or the means to finance the hiring or acquisition of such staff, facilities, or equipment. The NJDOA also may grant a waiver for one year to the district if a different sponsor currently runs the Federal Summer Food Service Program within the district's community.

Pursuant to N.J.S.A. 18A:33-26.b., when requesting a waiver pursuant to N.J.S.A. 18A:33-26.a., the district shall report to the NJDOA, in the manner prescribed by the NJDOA, its reasons for requesting a waiver of the requirements of N.J.S.A. 18A:33-24. The report shall include, but need not be limited to, a description of the specific impediments to implementing the program and actions that could be taken to remove those impediments or, where applicable, the identification of the

- 5. The provisions of N.J.S.A. 18A:33-21b1 shall not apply in the case of a school which participates in the Community Eligibility Provision.

School meals applications shall be reviewed in a timely An eligibility determination will be made, the family will be notified of its status, and the status will be implemented as soon as possible within ten operating days of receipt of the completed application pursuant to 7 CFR 245.6(c)(6). "Operating days" mean days that reimbursable meals are offered to eligible students under the National School Lunch Program or School Breakfast Program. Any student found eligible shall be offered free or reduced price meals or free milk immediately upon the establishment of their eligibility and shall continue to receive such meals during the pendency of any inquiry regarding their eligibility in accordance with the requirements of the Division of Food and Nutrition, School Nutrition Programs, NJDOA. Carry-over of previous year's eligibility for students shall be in accordance with the requirements of the Division of Food and Nutrition, School Nutrition Programs, NJDOA.

In accordance with 7 CFR 245.6(c)(1) and (2), eligibility for free or reduced price meals, as determined through an approved application or by direct certification, must remain in effect for the entire school year and for up to thirty operating days in the subsequent school year. Prior to the processing of an application or the completion of direct certification

procedures for the current school year, children from households with approved applications or documentation of direct certification on file from the preceding year, shall be offered reimbursable free and reduced price meals, as appropriate.

In accordance with 7 CFR 245.6(c)(6)(iii), children from households that notify the local educational agency that they do not want free or reduced price benefits must have their benefits discontinued as soon as possible.

Pursuant to 7 CFR 245.6(c)(7), if the district receives an incomplete school meals application or a school meals application that does not meet the eligibility criteria for free or reduced priced benefits, the school meals application must be denied. The district shall document and retain the denied school meals application and reasons for ineligibility for three years in accordance with 7 CFR 245.6(e).

In accordance with 7 CFR 245.6(c)(7), parents of students who are denied benefits must receive prompt, written notification of their denial. The notification may be provided by mail or email to the individual who signed the school meals application. Posting the denial on the "notification" page of an online system does not meet this requirement. Likewise, informing the parent of denial via telephone does not meet this requirement. If the district uses an automated telephone information system to notify parents of denied benefits, the district must also provide the parents with written notification of the denial. The notification must provide the: reason for denial of benefits; right to appeal; instructions on how to appeal; and ability to reapply for free and reduced price benefits at any time during the school year.

In accordance with 7 CFR 245.6(e), the district shall record the eligibility determination and notification in an easily referenced format. The record shall include the: denial date; reason for denial; date the denial notice was sent; and signature

PATERSON BOARD OF EDUCATION

OPERATIONS 8500/Page 15 of 23 Food Services

or initials of the determining official (may be electronic, where applicable).

Any parents of students who have benefits that are to be reduced or terminated must be given ten calendar days' written notice of the change prior to the date the change will go into effect pursuant to 7 CFR 245.6a(j). The first day of the advance notice period shall be the day the notice is sent. The notice of adverse action may be sent via mail or to the e-mail address of the parent. The district cannot notify the household of adverse action by phone only.

Pursuant to 7 CFR 245.6a(j), the notice of adverse action must advise the parents of: change in benefits; reasons for the change; an appeal must be filed within the ten calendar days advance notice period to ensure continued benefits while awaiting a hearing and decision; instructions on how to appeal; and the parents may reapply for benefits at any time during the school year.

If the district participates in any National School Lunch Program, School Breakfast Program, or provides free milk under the Special Milk Program, the district shall submit to the NJDOA a free and reduced price policy statement pursuant to 7 CFR 245.10.

In accordance with 7 CFR 245.1(b), the district shall avoid any policy or practice leading to the overt identification of students receiving free or reduced price meal benefits. Overt identification is any action that may result in a child being recognized as potentially eligible for or certified for free or reduced price school meals. Unauthorized disclosure or overt identification of students receiving free and reduced price meal benefits is prohibited. The district shall ensure that a child's eligibility status is not disclosed at any point in the process of providing free and reduced price meals, including: notification of the availability of free and reduced price benefits; certification and notification of eligibility;

PATERSON BOARD OF EDUCATION

OPERATIONS 8500/Page 16 of 23 Food Services

provision of meals in the cafeteria; and the point of service. In addition, the district shall ensure students who receive free and reduced price benefits are not overtly identified when they are provided additional services under programs or activities available to low-income students based on their eligibility for free and reduced price meals.

Pursuant to 7 CFR 245.2, disclosure means revealing or using individual student's program eligibility information obtained through the free and reduced price meal or free milk eligibility process for a purpose other than the purpose for which the information was obtained. Disclosure includes, but is not limited to, access, release, or transfer of personal data about students by means of print, tape, microfilm, microfiche, electronic communication, or any other means. It includes eligibility information obtained through the school meals application or through direct certification.

If the district accepts both cash and electronic payments, the district shall ensure students are not overtly identified through the method of payment pursuant to 7 CFR 245.8(b). To the maximum extent practicable, the district must ensure the sale of non-program foods and the method of payment for non-program foods do not inadvertently result in students being identified by their peers as receiving free and reduced price benefits.

The School Business Administrator/Board Secretary or designee will verify applications of those eligible for free or reduced price meals in accordance with the requirements of the Division of Food and Nutrition, School Nutrition Programs, NJDOA.

F. Meal Charge Program - N.J.S.A. 18A:33-21

The Board of Education does not permit a student in the school district to charge for breakfast or lunch.

The Board of Education recognizes a student may not have breakfast or lunch (meal), as applicable, or money to purchase an

unsubsidized school breakfast or school lunch at school on a school day causing the student's unsubsidized school breakfast or unsubsidized school lunch bill to fall into arrears. The participating school district shall contact the student's parent to provide notice of the arrearage and shall provide the parent with a period of ten school days to pay the amount due. If the student's parent has not made full payment by the end of the designated ten school day period, then the participating school district shall again contact the student's parent to provide notice of any action to be taken in response to the arrearage.

A parent who has received a second notice their student's unsubsidized school breakfast or unsubsidized school lunch bill is in arrears and who has not made payment in full within one week from the date of the second notice may be requested to meet with the Principal or designee to discuss and resolve the matter.

A parent's refusal to meet with the Principal or designee or take other steps to resolve the matter may be indicative of more serious issues in the family or household. However, when a parent's routine failure to provide breakfast or lunch is reasonably suspected to be indicative of child neglect, the Principal or designee shall immediately report such suspicion to the Department of Children and Families, Division of Child Protection and Permanency as required in N.J.S.A. 9:6-8.10. Such reporting shall not be delayed to accommodate a parent's meeting with the Principal or designee.

A participating school district shall report at least biannually to the NJDOA the number and percentage of enrolled students who have been denied school breakfast or school lunch on the basis of an unsubsidized meal bill arrearage, pursuant to N.J.S.A. 18A:33-21.a.(2) and this Policy.

Nothing in N.J.S.A. 18A:33-21 or this Policy shall be construed to:

PATE RSON BOARD OF EDUCATION

OPERATIONS 8500/Page 18 of 23 Food Services M

1. Require the participating school district to deny or restrict the ability of a student to access unsubsidized school breakfast or unsubsidized school lunch, respectively, whenever the student's unsubsidized school breakfast or unsubsidized school lunch bill is in arrears; or

2. Authorize the participating school district to deny or restrict the ability of a student who is incomeeligible for subsidized school lunch, but who is not income-eligible for subsidized school breakfast, to continue to access subsidized school lunch whenever the student's unsubsidized school breakfast bill is in arrears.

The participating school district shall not:

- Publicly identify or stigmatize a student who cannot pay for an unsubsidized school breakfast or an unsubsidized school lunch or whose unsubsidized school breakfast or lunch bill is in arrears, for example, by requiring the student to sit at a separate table, to wear a wristband, hand stamp, or identifying mark, or to accept an alternative meal;
- 2. Require a student, who cannot pay for an unsubsidized school breakfast or an unsubsidized school lunch or whose unsubsidized school breakfast or lunch bill is in arrears to do chores or other work to pay for the unsubsidized school breakfast or unsubsidized school lunch:
- 3. Require a student to discard an unsubsidized school breakfast or an unsubsidized school lunch after it has been served, either because the student is unable to pay for the unsubsidized school breakfast or unsubsidized school lunch or because the student's

unsubsidized school breakfast or unsubsidized lunch bill is in arrears;

- 4. Prohibit a student, or a sibling thereof, from attending or participating in non-fee-based extracurricular activities, field trips, or school events, from receiving grades, official transcripts, or report cards, or from graduating or attending graduation events, solely because of the student's unresolved breakfast or lunch debt; or
- 5. Require a student's parent to pay fees or costs in excess of the actual amounts owed for unsubsidized school breakfasts or unsubsidized school lunches, or both, which have been previously served to the student.

If a student owes money for the equivalent of five or more unsubsidized school meals, the Principal or designee of the participating school district shall:

- 1. Determine whether the student is eligible for subsidized school meals, by conducting a review of all available records related to the student, and by making at least two attempts, not including the initial attempt made pursuant to N.J.S.A. 18A:33-21b1, to contact the student's parent and have the parent complete a subsidized school meals application; and
- 2. Contact the student's parent to:
 - a. Offer assistance with respect to the completion of the subsidized school meals application; and
 - b. Determine whether there are other issues in the household that have caused the student to have insufficient funds to purchase an unsubsidized school breakfast or unsubsidized school lunch, as the case may be; and

c. Offer any other appropriate assistance.

The participating school district shall direct communications about a student's unsubsidized school meals arrearage to the parent and not to the student. Nothing in N.J.S.A. 18A:33-21 shall prohibit the participating school district from sending a student home with a letter addressed to a parent.

Notwithstanding the provisions of N.J.S.A. 18A:33-21 and the provisions of any other law, rule, or regulation to the contrary, a student shall not be denied access to a school meal, regardless of the student's ability to pay or the status of the student's meal arrearages, during any period of time in which the participating school district is making a determination, pursuant to N.J.S.A. 18A:33-21.c., as to whether the student is eligible for, and can be certified to receive, subsidized school meals.

If the student's meal bill is in arrears, but the student has the money to purchase a meal on a subsequent school day, the student will be provided a meal with payment and the food service program will not use the student's payment to repay previously unpaid charges if the student intended to use the money to purchase that school day's meal.

Students receiving free meals will not be denied a meal even if they accrued a negative balance from other purchases in the cafeteria.

The school district may post this Policy on the school district's website provided there is a method in place to ensure this Policy reaches all households without access to a computer or the Internet.]

H. Provision of School Meals During Period of School Closure -N.J.S.A. 18A:33-27.2

Whenever the Board receives a written directive, from either the New Jersey Department of Health or the health officer of the jurisdiction, instituting a public health-related school closure due to the COVID-19 epidemic, the district having jurisdiction over the closed school shall implement and operate an emergency school meals distribution program during the period of the school closure. An emergency school meals distribution program implemented pursuant to N.J.S.A. 18A:33-27.2 shall provide for subsidized school meals to be made available, at meal distribution sites designated pursuant to N.J.S.A. 18A:33-27.2.b., to all students enrolled in the district who are either categorically eligible or income-eligible therefor.

In order to facilitate the emergency distribution of subsidized school meals in the event of an emergency public school closure, as described in N.J.S.A. 18A:33-27.2.a., each district shall identify one or more school meal distribution sites that are walkable and easily accessible to students in the district. The district shall collaborate with county and government officials in identifying appropriate distribution sites including, but not limited to: faith-based locations; community centers, such as YMCAs; and locations in the district where meals are made available through a summer meals program. 9163 SPECTATOR CODE OF CONDUCT FOR INTERSCHOLASTIC EVENTS

The Board of Education promotes a physically and emotionally safe and healthy playing environment at interscholastic events and insists good sportsmanship be exhibited at all times by student athletes, coaches, officials, and spectators at such events.

The New Jersey State Interscholastic Athletic Association (NJSIAA) requires the Board to establish policies and procedures relating to sportsmanship and to identify responsibilities of administrators, coaches, and students to ensure their observance. The NJSIAA requires the Board to adopt a Spectator Code of Conduct Policy for all spectators attending an interscholastic event.

The NJSIAA and the Board require high standards of courtesy, fair play, and sportsmanship be featured at school district and NJSIAA interscholastic events. For the purpose of this Policy, a "home event" shall mean any event occurring in the school district's buildings or on school grounds.

For the purpose of this Policy, "school grounds" also includes other recreational places owned by local municipalities, private entities, or other individuals during those times when the school district has exclusive use of a portion of the land.

1. Unsportsmanlike conduct includes, but is not limited to, actions of a fan or spectator who:

9200 COOPERATION BETWEEN PARENTS AND SCHOOL

The Board of Education believes that the education of children is a joint responsibility that the Board shares with the parent(s) or legal guardian(s) of students. To ensure that the best interests of the child are served in this process, a strong program of communication between home and school must be maintained.

It is the position of the Board that parent(s) or legal guardian(s) bear the ultimate responsibility for their children's in-school behavior, including the behavior of students who have reached the legal age of majority, but are still for all practical purposes under parental authority.

The Board directs that cooperation be encouraged by parent-teacher conferences that permit two-way communication between home and school; open houses in district schools that provide parent(s) or legal guardian(s) with the opportunity to see the school facilities, meet the faculty, and observe the program on a firsthand basis; meetings of staff members and groups of the parent(s) or legal guardian(s) of those students having special abilities, needs, or problems; and special events of a cultural, ethnic, or topical nature, which are initiated by parent groups, involve the cooperative effort of students and parent(s) or legal guardian(s), and are of general interest to the schools or community.

To support a positive and productive relationship between the school and home, the Board expects all parent(s) or legal guardian(s) to engage with school personnel in a respectful, civil, and constructive manner. Therefore, the use of obscene, profane, threatening, or abusive language; hostile or aggressive conduct; or any other behavior that disrupts the educational environment or interferes with staff duties is strictly prohibited.
